

Deephealth

is committed to achieving net zero emissions by 2045 when we plan to have reduced our emissions by 90%.

Baseline Emissions Footprint vs Current Emissions Footprint

Baseline emissions are a record of the greenhouse gasses that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Emission Scope	Baseline Emissions, 2023 (kg CO2e)	Current Emissions, 2023 (kg CO2e)
Scope 1	0	0
Sites **	0	0
Company Cars	0	0
Delivery Vehicles	0	0
Scope 2	0	0
Sites **	0	0
Scope 3	8,289	8,289
Sites **	0	0
Home Working	4,379	4,379
Company Cars	0	0
Employee Owned Vehicles	3,463*	3,463*
Employee Commuting	0	0
Public Transport & Hire Cars	0	0
Air Travel	0	0
Hotels	447	447
Freighting Goods	0	0
Waste Disposal	0	0
Total	8,289	8,289
** Generated from renewable sources	0	0

* includes WTT

The Scope 3 emissions include as a minimum:

- Upstream transportation and distribution
- Waste generated in operations
- Business Travel
- Employee Commuting
- Downstream transportation and distribution

(any omissions or further information is documented in the Additional Details About our Emissions and Targets box below)

Carbon Reduction: Projected vs Actual

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next years to 829 by 2045 this is a reduction of 90%

Additional Details About our Emissions and Targets

Year

Comments

2023

Scope 1 - There are no emissions associated with Scope 1 Scope 2 - There are no emissions associated with Scope 2 Scope 3 Category 4 Upstream Transportation and Distribution - There are no emissions associated with Scope 3 Category 4 Scope 3 Category 5 Waste Generated in Operations - There are no emissions associated with Scope 3 Category 5 Scope 3 Category 9 Downstream Transportation and Distribution - There are no emissions associated with Scope 3 Category 9

Carbon Reduction Projects

The following environmental management measures and projects are currently in progress or have been completed since the 2023 baseline.

Actions In Progress

Business Mileage (private vehicle)

Target Completion Date: 30/04/2025

Objective

To reduce the business mileage undertaken by employees

Target

10% reduction in emissions from business mileage

Action, Improvement or Control

Increase number of virtual meetings Encourage car sharing Increase use of public transport Educate employees on maintenance of their vehicles and raise awareness on fuel efficiency.

Track data

Target Completion Date: 30/04/2025

Objective

In line with any business growth objectives, ensure the ongoing collection of data relevant to the requirements of the NHS Carbon Reduction Plans.

Target

To maintain the accuracy of data collection.

Action, Improvement or Control

Given that the baseline carbon reduction plan currently reports on only a few categories, as this is the only action undertaken by the business, it is crucial that the business ensure continued data collection in accordance with the NHS Carbon Reduction Plan.

Implement Sustainability Policies

Target Completion Date: 30/04/2025

Objective

Reduce emissions through making more sustainable decisions where possible.

Target

To reduce emissions by implementing sustainability policies

Action, Improvement or Control

Sustainability policies enable the business to make more sustainable decisions with ease. This will help the business grow in a more environmentally friendly way.

Completed Actions

Declaration and Sign Off

This carbon reduction plan has been completed in accordance with PPN 06/21 and the associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHC Reporting Protocol corporate standard ¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting ².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
